

## Where are they now?

x16 remain housed (all x5 Let Only's, x10 with us, x1 moved) that's 84%!

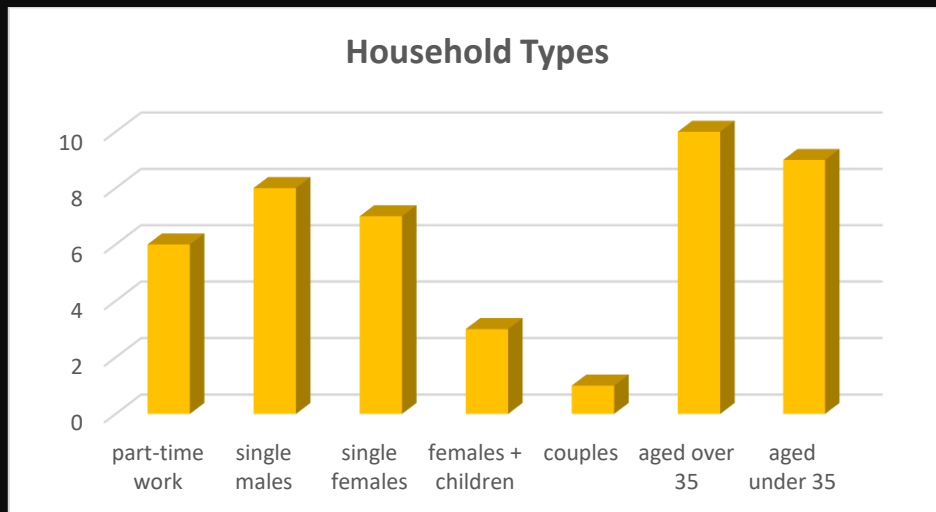

There are no rent arrears for any of our tenants or any anti-social behaviour.

Of the 3 who are no longer tenants:

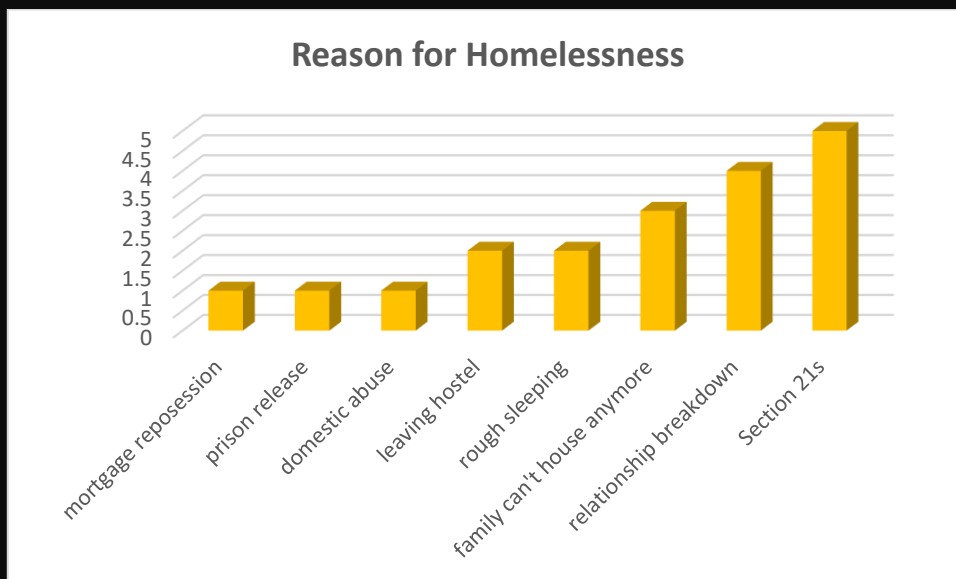

x2 were evicted by us (a necessity), (1 supported by a local council, 1 taken in by family). This was done with no need for court action or costs to the landlords.

x1 went to prison

## Household Types:

**Reasons for homelessness:** Please note - only the people on a Section 21 (a 'no fault' eviction notice) & under repossession, were living in their 'own home'.

\*Evictions from the private rent sector is now the biggest cause of homelessness in the country too. More people than ever before now live in privately rented homes; about 20% of the population. We are a new kind of letting agent that, amongst other things, reduces the need for evictions – benefitting landlords and tenants.

**THANK YOU TO EVERYONE WHO WORKS WITH US – YOU HELP US REDUCE HOMELESSNESS!**
