

**We asked some of our landlord customers why they choose us, here's what they said!**

**Mark Stephenson, North Yorks. Landlord**

"I decided to use The Ethical Lettings Agency to let a property in Redcar. I'd never used them before but I'd had problem tenants previously so thought I needed some help. They found good tenants in a short space of time, and at more rent than I was charging before. I've used them again with the same results – I'd definitely recommend them."

**Mary Walker, Redcar and Cleveland Landlord**

"I don't know where I'd be without The Ethical Lettings Agency! They took over several properties for me, two of which were empty, and have turned them around. They have lifted the worry I had, I know I can trust them, and they really know what they are doing."

**Richard Barker, National Landlord**

"I use The Ethical Lettings Agency for several properties to find me good tenants and for the Income Management service. They have reduced the costs I'd had before dealing with bad tenants. It's refreshing to find a letting agency who does what they say, and makes my rental business easier to manage."

**Sarah Sharp, Yorkshire Landlord**

"I chose The Ethical Lettings Agency after doing research on Teesside letting agents and thought they sounded the most helpful. I made the right choice! They let my property to good tenants, they take care of everything, and I really like how committed they are to the local community. Certainly the most honest agents I've come across!"

**If you are a landlord with properties in Redcar, Cleveland or Teesside, why not transfer your properties to us? We'd love to talk to you!**
